DETAILED ACTION

1. Applicant's request for reconsideration of the finality of the rejection of the last office action is persuasive and, therefore, the finality of that action is withdrawn.

Election/Restrictions

2. Claim 1 is generic and allowable. Accordingly, the restriction requirement as to the encompassed species is hereby withdrawn and claim 4, 5, 7, 9-13, 15-17, 21-22, & 38, directed to the species of B-U no longer withdrawn from consideration since all of the claims to this species depend from or otherwise include each of the limitations of an allowed generic claim, therefore those claims are rejoined and are in condition for allowance.

3. In view of the above noted withdrawal of the restriction requirement as to the linked species, applicant(s) are advised that if any claim(s) depending from or including all the limitations of the allowable generic linking claim(s) be presented in a continuation or divisional application, such claims may be subject to provisional statutory and/or nonstatutory double patenting rejections over the claims of the instant application. Once a restriction requirement is withdrawn, the provisions of 35 U.S.C. 121 are no longer applicable. See *In re Ziegler*, 44 F.2d 1211, 1215, 170 USPQ 129, 131-32 (CCPA 1971). See also MPEP § 804.01.

EXAMINER'S AMENDMENT

4. An examiner's amendment to the record appears below. Should the changes and/or additions be unacceptable to applicant, an amendment may be filed as provided by 37 CFR 1.312. To ensure consideration of such an amendment, it MUST be submitted no later than the payment of the issue fee.

Art Unit: 3763

Authorization for this examiner's amendment was given in a telephone interview with Michael Glenn on December 13, 2005.

The application has been amended as follows:

[Claim] 21. A method as in claim 1, wherein ~~said~~ treatment includes shrinkage of said engorged or inflamed tissue by removal of an ablated tissue or a dead cell matter.

[Claim] 22. A method as in claim 1, wherein ~~said~~ treatment includes shrinkage of said engorged or inflamed tissue by removal of infection products.

Reasons for Allowance

5. Claims 1-38 are in condition for allowance.

6. The following is an examiner's statement of reasons for allowance: The subject matter of the independent claim could either not be found or was not suggested in the prior art of record. The subject matter not found was a method for treating a dilation of a body, including the steps of perfusing a substance into a tissue, heating the substance to a temperature at which it is readily absorbed, softening tissue of a wall by applying additional energy, and permanently contracting dilation by applying a vacuum, in combination with the other elements and steps in the claims.

Any comments considered necessary by applicant must be submitted no later than the payment of the issue fee and, to avoid processing delays, should preferably accompany the issue fee. Such submissions should be clearly labeled "Comments on Statement of Reasons for Allowance."
